DEVELOPER EXPERIENCE

American Physician Partners - *Full Stack Developer* | Brentwood, TN   March 2020 - Present
- Built new tools for the IT department to utilize within the companies web portal using VanillaJS, SQL, and HTML/CSS
- Avoiding frameworks and libraries in order to have complete control of website and increase performance
- Projects so far include rebuilding the home page dashboard, scheduler for company bots to run tasks, email queue review for internal communications, and multiple admin UIs to manage and manipulate data.
- Creative lead for all UI styling decisions for new and existing customer facing and internal facing pages
- Focusing on object oriented programing to generate reusable tools throughout the companies web portal

YogaClub (yogaclub.com) - *Full Stack Web Developer* | El Segundo, CA   June 2017 - Dec 2019
- Sole developer for the companies front-end needs for in-house applications and user facing landing pages and apps
- Created multiple customer facing web applications. Most notably the exchange store, customer love center, style quiz, sneak peek, referral program, Trend-Setter Survey, and account settings page
- Integrated social media sharing capabilities and pixel tracking to improve retention rates and viral marketing
- Helped company cut costs with customer support by bettering applications and user experience
- Working in an agile workflow I continually learn new languages and succeed in short timeframes
- Involved in development of new apps from start to finish most notably CARLA (in house order curation web app)
- Increased user retention by building churn remediation and custom Save-A-Sale flows by inspecting users feedback and giving them specific promotions and gifts

Stealth Venture Labs - *Front-end Web Developer (freelance)* | El Segundo, CA   May 2017- June 2017
- Redesigned client facing website for Tuner Crate using HTML, CSS, jQuery in Shopify Liquid
- Communicated with designers and project manager to receive mockups and clarify details and developer limitations
- Developed dynamic pages for mobile and desktop view
- Gave constructive criticism on conventional coding practices after working in a pre-existing project

PROFESSIONAL EXPERIENCE
